

## 1995 Mercedes-Benz E280 - £4995 **SOLD**

As diesel fanatics it takes quite a lot to get us excited about petrol cars - but we've found a cracker!

This is an N-reg E280 estate first registered in October 1995 making it a very late car from the last 12 months of manufacture. It's finished in deep purple/blue Azurite Blue - a late addition to the W124 colour range and probably the best colour ever used on these cars. Owned by 3 members of the same family since new it was serviced by Mercedes dealers up to 90k miles and has been maintained by a specialist in Chichester since then

The car is in excellent condition - the leather interior is unmarked, the body work is free from the parking dings that afflict "town" cars, the paintwork is fantastic and the 8-hole alloys are in in great condition

The car has our two most-requested options - leather and air-conditioning - plus the super-rare optional 5-speed auto box. The spec is huge:

- \* Azurite Blue metallic paint
- \* Grey leather interior
- \* 7 seats
- \* Mercedes RCL Remote Central Locking / immobiliser / alarm
- \* Air-conditioning
- \* 8-hole alloys
- \* towbar
- \* 5-speed auto

The options above are in addition to the more common options:

- \* Factory-fit Blaupunkt stereo
- \* Electric sunroof, windows, mirrors and tailgate lock
- \* headlight height adjuster
- \* height-adjustable front seats
- \* centre cubby box with sliding lid
- \* retractable loadspace cover
- \* retractable load retainer
- \* carpet overmats
- \* electric aerial
- \* ABS
- \* twin airbags

The car has been serviced, valeted and checked over for us and is ready for sale now. If you're looking for a high-spec estate, take a look at this car. It's quick, refined and has nice chilly aircon - ideal for the long hot summer ahead! The car will be sold with a new MOT, limited 1-year parts & labour warranty - but we don't guarantee the good weather!

New photos now uploaded

**History:** Mercedes history to 90k miles then local specialist service history

**Colour:** Azurite Blue

**Mileage:** 133k
