## 1994 Mercedes-Benz E300 - Enquire PDF

High-spec E300 Diesels are extremely rare but we've found another interesting example. It's due in the workshop in the next couple of days for a checkover and service after which it'll be valeted and prepared for sale. The photos shown are of the car before it has been valeted. New photos and an updated description will be posted soon

Finished in Brilliant Silver with a very smart Anthracite (black) cloth interior it has a four-speed automatic gearbox, cruise control and air-conditioning. It's a 7-seater making it ideal for larger families

The specification is:

- \* 1994 M registration E300 Diesel estate
- \* Brilliant Silver metallic exterior
- \* Anthracite (black) cloth interior
- \* burr walnut dash
- \* electric sunroof
- \* electric windows
- \* rear headrests
- \* 7 seats
- \* air-conditioning
- \* 4-speed automatic gearbox
- \* ABS
- \* twin airbags
- \* Kenwood CD / Radio
- \* Mercedes 8-hole alloys
- \* cruise control

We're big fans of the E300 Diesels and have probably sold more of them than anyone in the country. This one is a nice example. It drives exactly as an E300 Diesel should with a supple, cossetting ride and it demonstrates the great long-distance cruising capability these cars are famous for

The overall condition of the car is excellent and it has a good spec with an attractive colour combination. It also has our most-requested option, air-conditioning

For more details please call Nicholas Froome on 07976 299636

**History:** Good history with almost-complete service book

**Colour:** Brilliant Silver

**Mileage:** 118k
