1995 Mercedes-Benz E300 Diesel - Enquire [PDF](#)

This is a rare 5-speed manual E300 Diesel estate which I bought as a temporary runabout. It has no service history but is being sold with a letter from the previous owner detailing the history of the car

The car had a major service immediately after purchase and it has run faultlessly since - I've covered about 3000 miles in it in the last 6 weeks and the air-conditioning has been very welcome. Reportedly the engine was rebuilt by Mercedes at 60,000 miles - certainly it pulls very hard and is the quickest Multivalve diesel I've driven

Finished in Azurite Blue with a smart grey cloth interior the car is in very good overall condition. With air-conditioning and a towbar it will make an ideal workhorse or family car. The 5-speed manual gearbox has the benefit of making the car appreciably more economical than an equivalent automatic

The specification is:

- * 1995 M registration E300 Diesel estate
- * Azurite Blue metallic exterior
- * Grey cloth interior
- * Zebrano dash
- * electric sunroof
- * electric windows
- * rear headrests
- * 5 seats (7 seats available as an option)
- * 5-speed manual gearbox
- * ABS
- * twin airbags
- * Hi-spec Blaupunkt CD / Radio
- * Pirelli P6000 tyres

An E300 Diesel Multivalve Estate with air-conditioning is a rare commodity and this car offers a cost-effective way to purchase such a vehicle. The car has had a recent major service, been MOTd and valeted, has current road tax and is ready to go. It'll be sold with our usual 1-year Warrantyworks warranty

For more details or to book a test drive please call Nicholas Froome on 07976 299636

History: No service history

Colour: Azurite Blue

Mileage: 169,000
