

W124 the independent Mercedes Estate specialists

1995 Mercedes-Benz E300 Diesel - Enquire [PDF](#)

We've just acquired what is probably one of the best E300 Diesel estates left in the UK. It's a one-owner car with full Mercedes service history, less than 100,000 miles, and a great specification

The specification is:

- * 1995 M registration E300 Diesel estate
- * Brilliant Silver metallic exterior
- * Dark blue leather interior
- * Electric driver's seat with two memories
- * Zebrano dash
- * electric sunroof
- * electric windows
- * rear headrests
- * 7 seats
- * 4-speed automatic gearbox
- * ABS
- * twin airbags
- * Sony CD / Radio
- * Michelin tyres
- * Mercedes remote central locking
- * headlamp wash/wipe

The overall condition of the car is excellent - it's virtually unmarked, the leather interior is superb and the rear-facing seats appear never to have been used. We've only had one car in equivalent condition in the last 3 years

The car drives beautifully, just as you'd expect of a W124 with less than 100,000 miles. It's quiet and comfortable and cruises effortlessly between 70 and 90 mph. The electric driver's seat has two memories, making the car ideal for two-driver families as the seat settings can be saved and recalled. The four-speaker Sony CD/Radio sounds good and the whole driving experience reminds me of precisely why I like to sell these cars. To my mind the E300 Diesel is the best W124 ever made and this is one of the two best I've sold

The car is due in the workshop this week for a check over and valet and should be ready by the second weekend in September

The photos of the car show it before it has been valeted and hardly do it justice. For further details please call Nicholas Froome on 07976 299636

History: Full Mercedes service history

Colour: Brilliant Silver

Mileage: 97,000
